PROFILE

AI Product Manager with end-to-end product ownership across discovery, PRDs, prioritization, GTM, launch, and analytics, plus hands-on experience shipping AI agents and workflow automation with founders and engineering teams. Improved notifications to generate 516 opens and 447 clicks in 30 days.

EXPERIENCE

GrowthX | Bengaluru, Karnataka

Jun 2026 - Present

Software Engineering Intern

- **Discovery to launch:** Owned product and engineering delivery with founders from user discovery, prioritization, requirements, and system design through launch, experimentation, production reliability, and Mixpanel analytics.
- **Notifications:** Built an end-to-end platform across React Native/Expo, Next.js, Convex, and backend services, using Firebase Cloud Messaging (FCM), native OS banners, in-app alerts, preferences, channel controls, quick mute, read states, web push, and email-digest settings.
- **Iteration:** Generated 516 opens and 447 clicks in 30 days by reaching all members with channel-wide alerts, adding channel-join and photo/video-message alerts, and enabling mobile read/unread states.
- **AI automation:** Built an AI operations agent that automates routine work and drafts Slack replies on a user's behalf; led app-install GTM and developed an ADB test framework covering 53 of 57 notification scenarios, saving about 2 days of QA.

Pink Unicorn Algorithms (Globerra.com) | Delhi NCR

Aug 2025 - May 2026

Associate Product Manager

- **Product strategy:** Owned delivery across CarbonNex, Rapidero, and Risk AI Council, turning client and business needs into PRDs, roadmaps, user flows, release scopes, and plans for design and engineering.
- **Workflow automation:** Cut more than 4 hours of daily manual work and removed manual rate-lookup errors by designing CarbonNex and Rapidero workflows for ESG reporting, six logistics modules, and automated shipment pricing.
- **GTM:** Led GTM and served as Content Lead for Risk AI Council, defining target users, launch messaging, website structure, learning programs, and content across six AI risk categories aligned with NIST AI RMF and EU AI Act principles.
- **AI agents:** Built and deployed AI voice agents via GetVocal.ai with dialogue flows and prompt architectures for client use cases.

Cvent India Pvt. Ltd. | Gurugram, Haryana

Jun 2025 - Aug 2025

Associate Product Consultant, Intern

- **Clients:** Worked with enterprise clients across 10+ accounts, understood event setup and workflow problems, resolved product issues, and guided effective Cvent platform use.
- **Product specs:** Mapped client journeys across Registration, Attendee Hub, Supplier Network, and Onsite Solutions; turned repeated needs into clear product briefs for the core team.
- **AI support:** Proposed an AI customer-support solution using CRM data to answer common questions, route complex cases, and resolve routine issues; presented a phased plan to leadership.

KEY PROJECTS

AI Digital Twin — Personal Work Automation Agent (Open Source)

- **Agent workflow:** Built an open-source agent to reduce switching across job applications, code reviews, Slack, meetings, and follow-ups, keeping work moving when unavailable.
- **Applications:** Automated applications by finding roles, applying on my behalf, tailoring my resume to each job description, writing cover letters, and generating an updated application-ready PDF.
- **PR automation:** Acted as my digital twin: reviewed PRs, found bugs and edge cases, drafted feedback, and replied on Slack in my voice using my priorities, decisions, and project context.
- **Memory:** Managed meetings and memory by scheduling meetings, sharing reminders and details, tracking follow-ups, and remembering each person's relationship, conversation history, tone, and communication style.

Coding Efficiency Measurement System — Full-Stack Coding Assessment Platform

- **Full-stack:** Built a self-contained browser coding platform with Python, Flask, SQLite, HTML, CSS, JavaScript, REST APIs, and role-based workflows for institute admins, teachers, and students.
- **Evaluation:** Created a Net Efficiency Score from keystrokes, idle time, tab switching, copy/paste, debugging patterns, focus intervals, and code complexity to evaluate process, not only output.
- **Testing:** Added code execution, session recording, and objective scoring to reduce cheating and subjective grading; wrote PRDs for all three personas and tested the platform at 2-3 accredited institutions, using feedback to improve it.

EDUCATION

B.Tech, Computer Science — Amity University Uttar Pradesh

2021 - 2025

SKILLS

Product & Analytics: PRDs, Product Discovery, Feature Prioritization, GTM Strategy, Mixpanel, User Journeys, Roadmapping, Agile/Scrum

Languages & Frontend: TypeScript, Python, JavaScript, React Native, Expo, Next.js, Flutter, HTML, CSS

Backend & Data: Convex, REST APIs, Firebase, Flask, SQLite, MongoDB, MySQL

AI & Automation: Agentic AI, LLMs, Prompt Engineering, Workflow Automation, Conversational AI

Engineering & Tools: System Design, Automated Testing, Production Deployment, API Integration, ADB, Git, GitHub, Postman, Jira
